

How To Install & Activate The Sauna App

1. Make sure the phone is connected to a **2.4 GHz** wifi connection.
2. Download the **Clearlight® Sauna Connect App** from the App Store for iPhone, and Google Play for Android.

3. Once downloaded, open the app and choose **Allow While Using App** to use your **location** to choose the right country server location

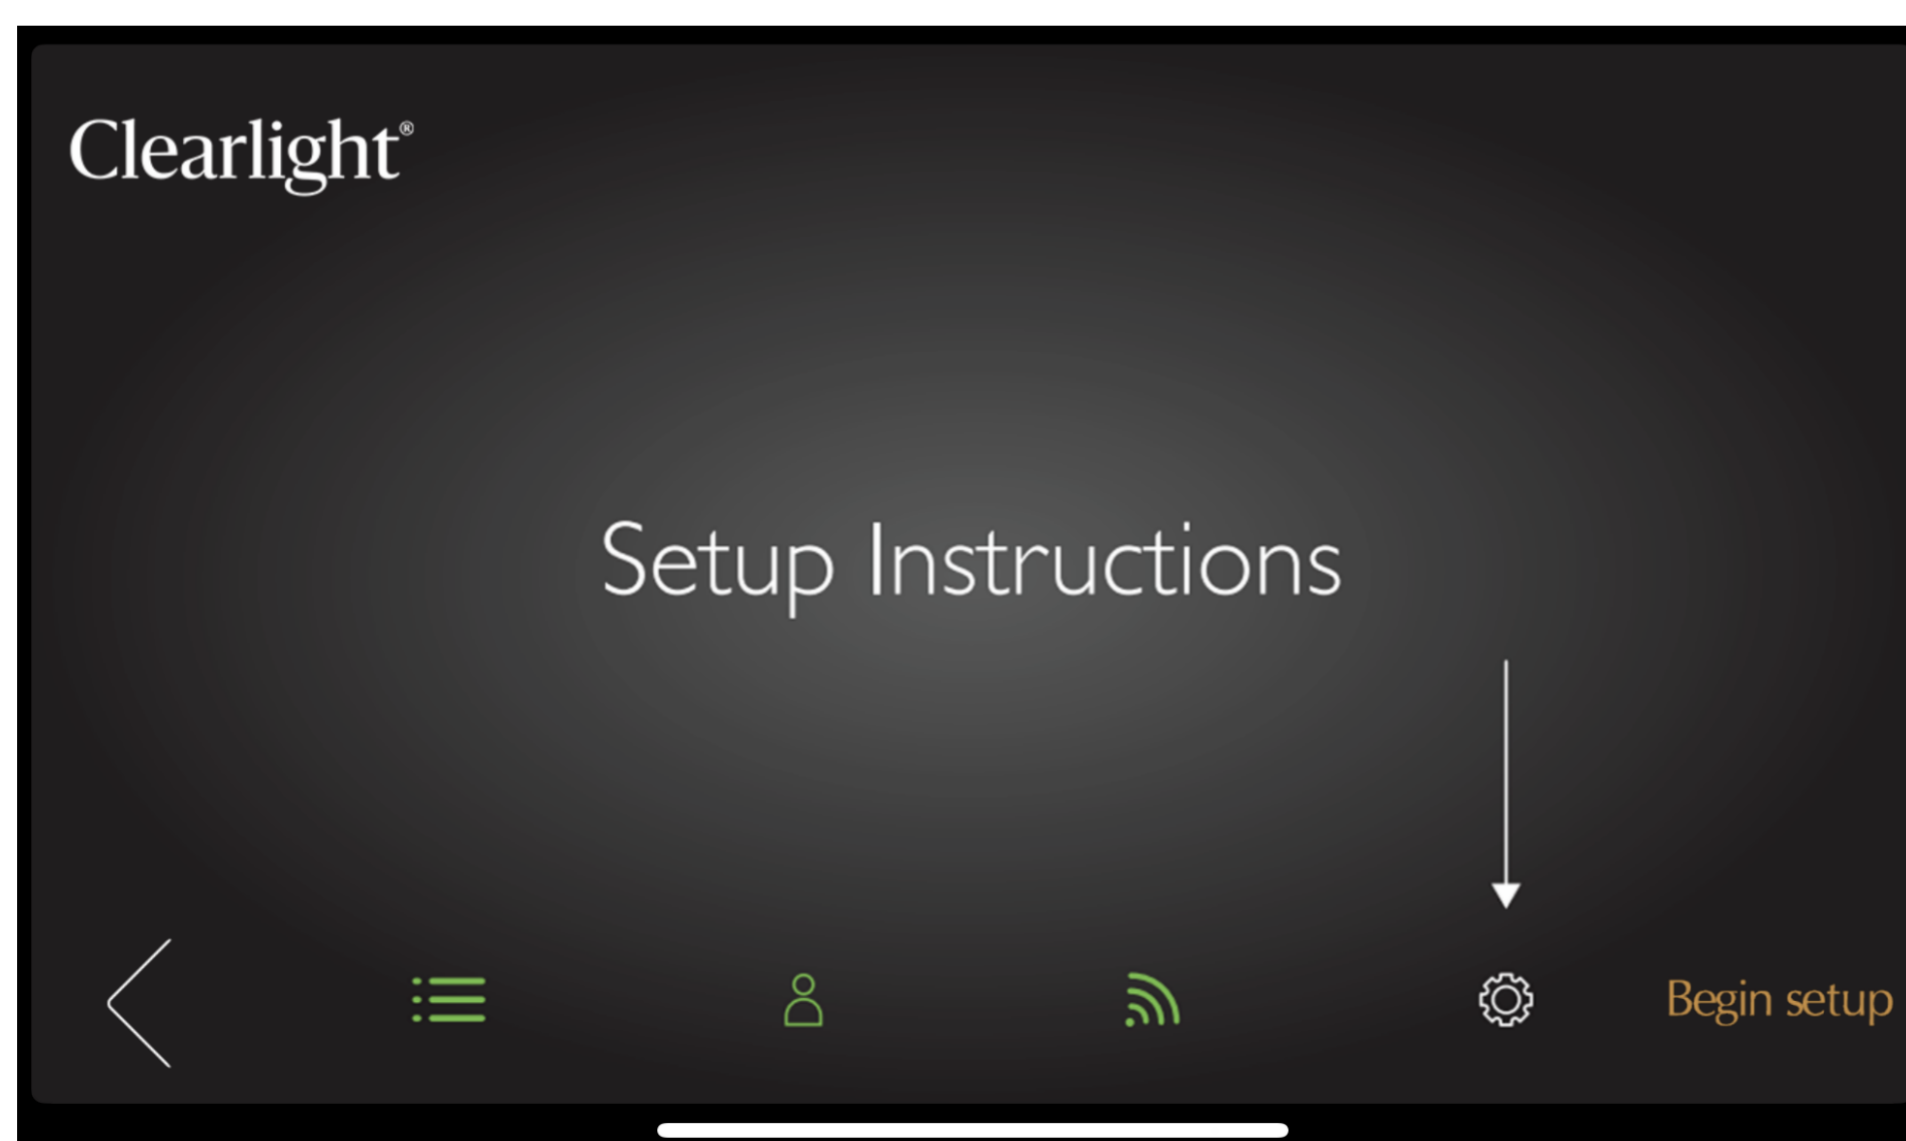

Navigate through the app set via the Welcome screen

4. Configure WiFi and Saunas - set up the wifi name and password.

5. Setup Instructions - detailed instructions on how to use this app and its functionality.

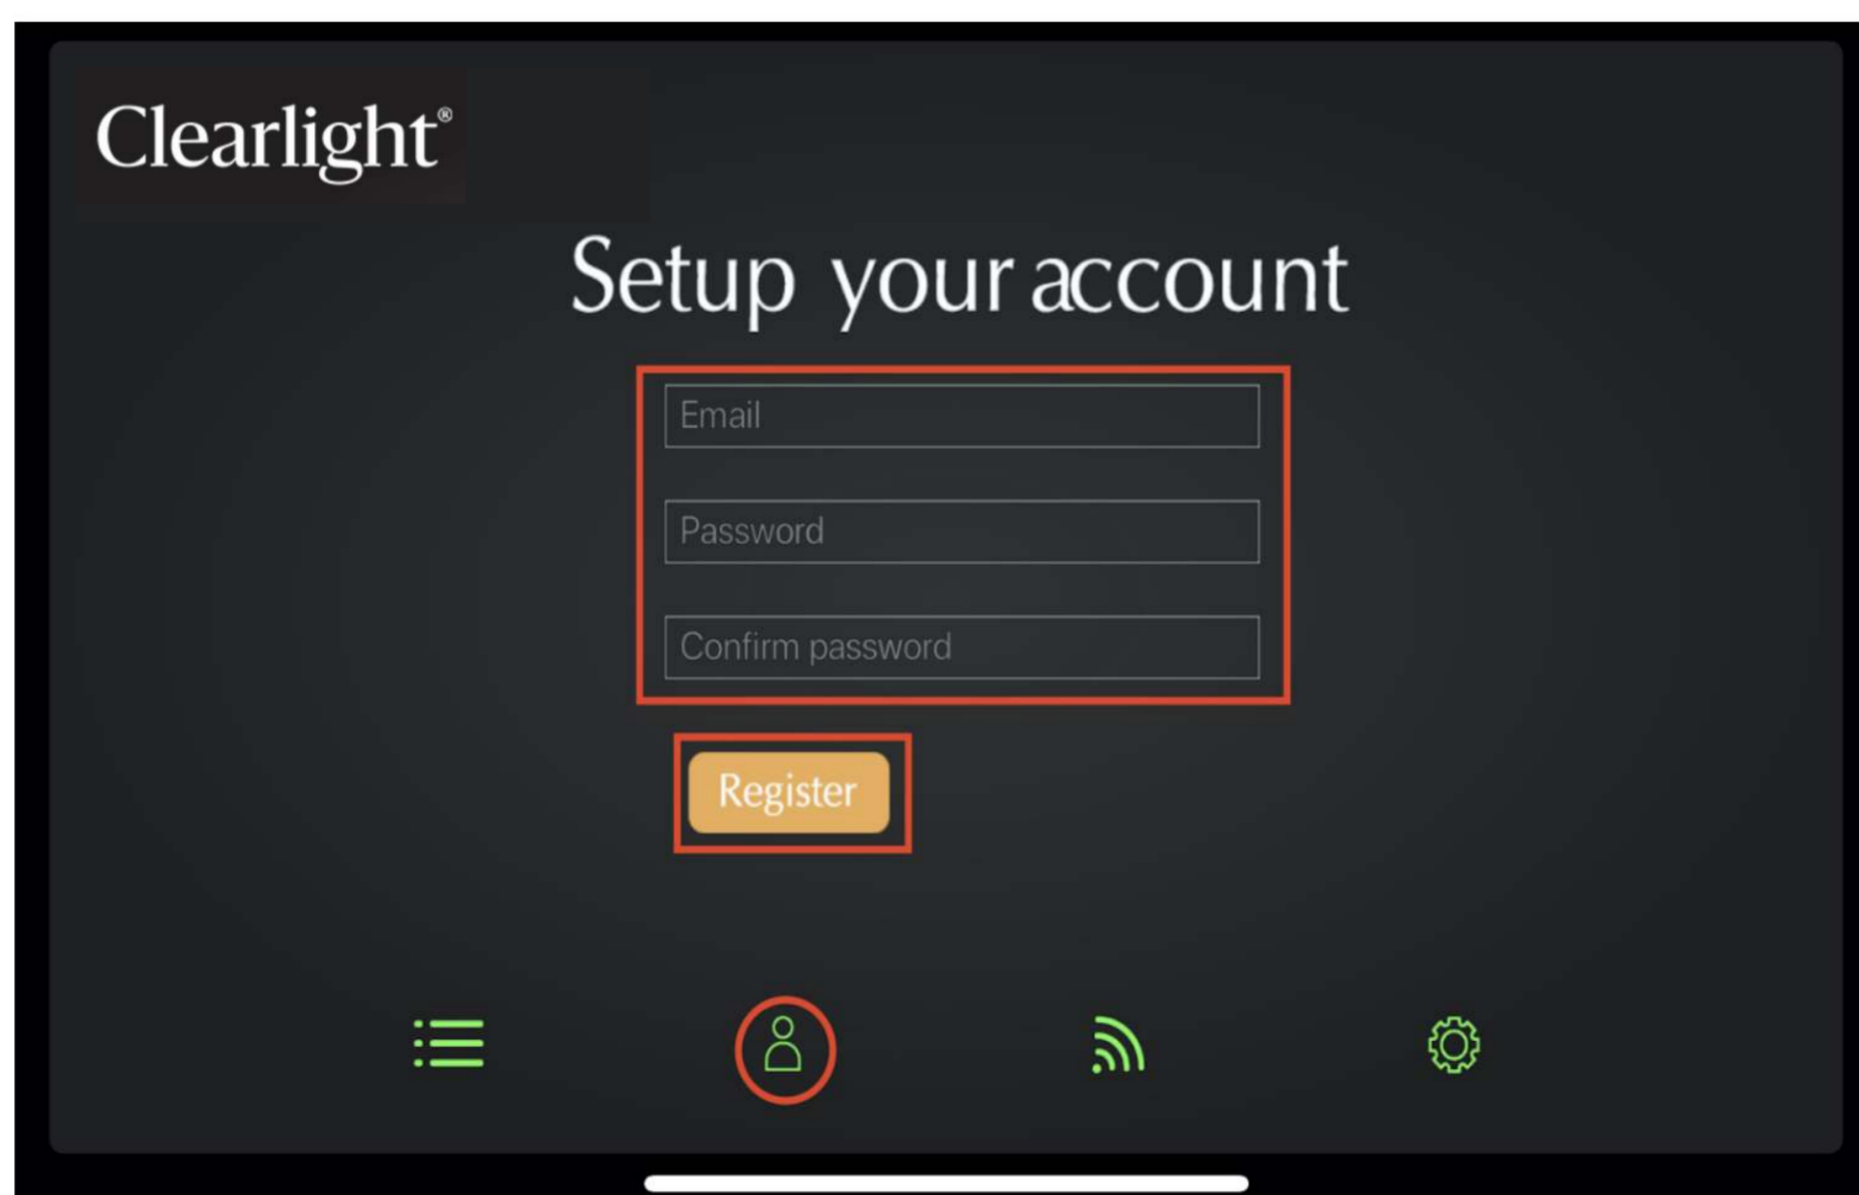

6. If you already have set up your account, enter your details and select **Login**. Your email address is your username, and can be used when the password needs to be reset.

If you have registered before and are having any issues logging in, it is advisable to use a new email address.

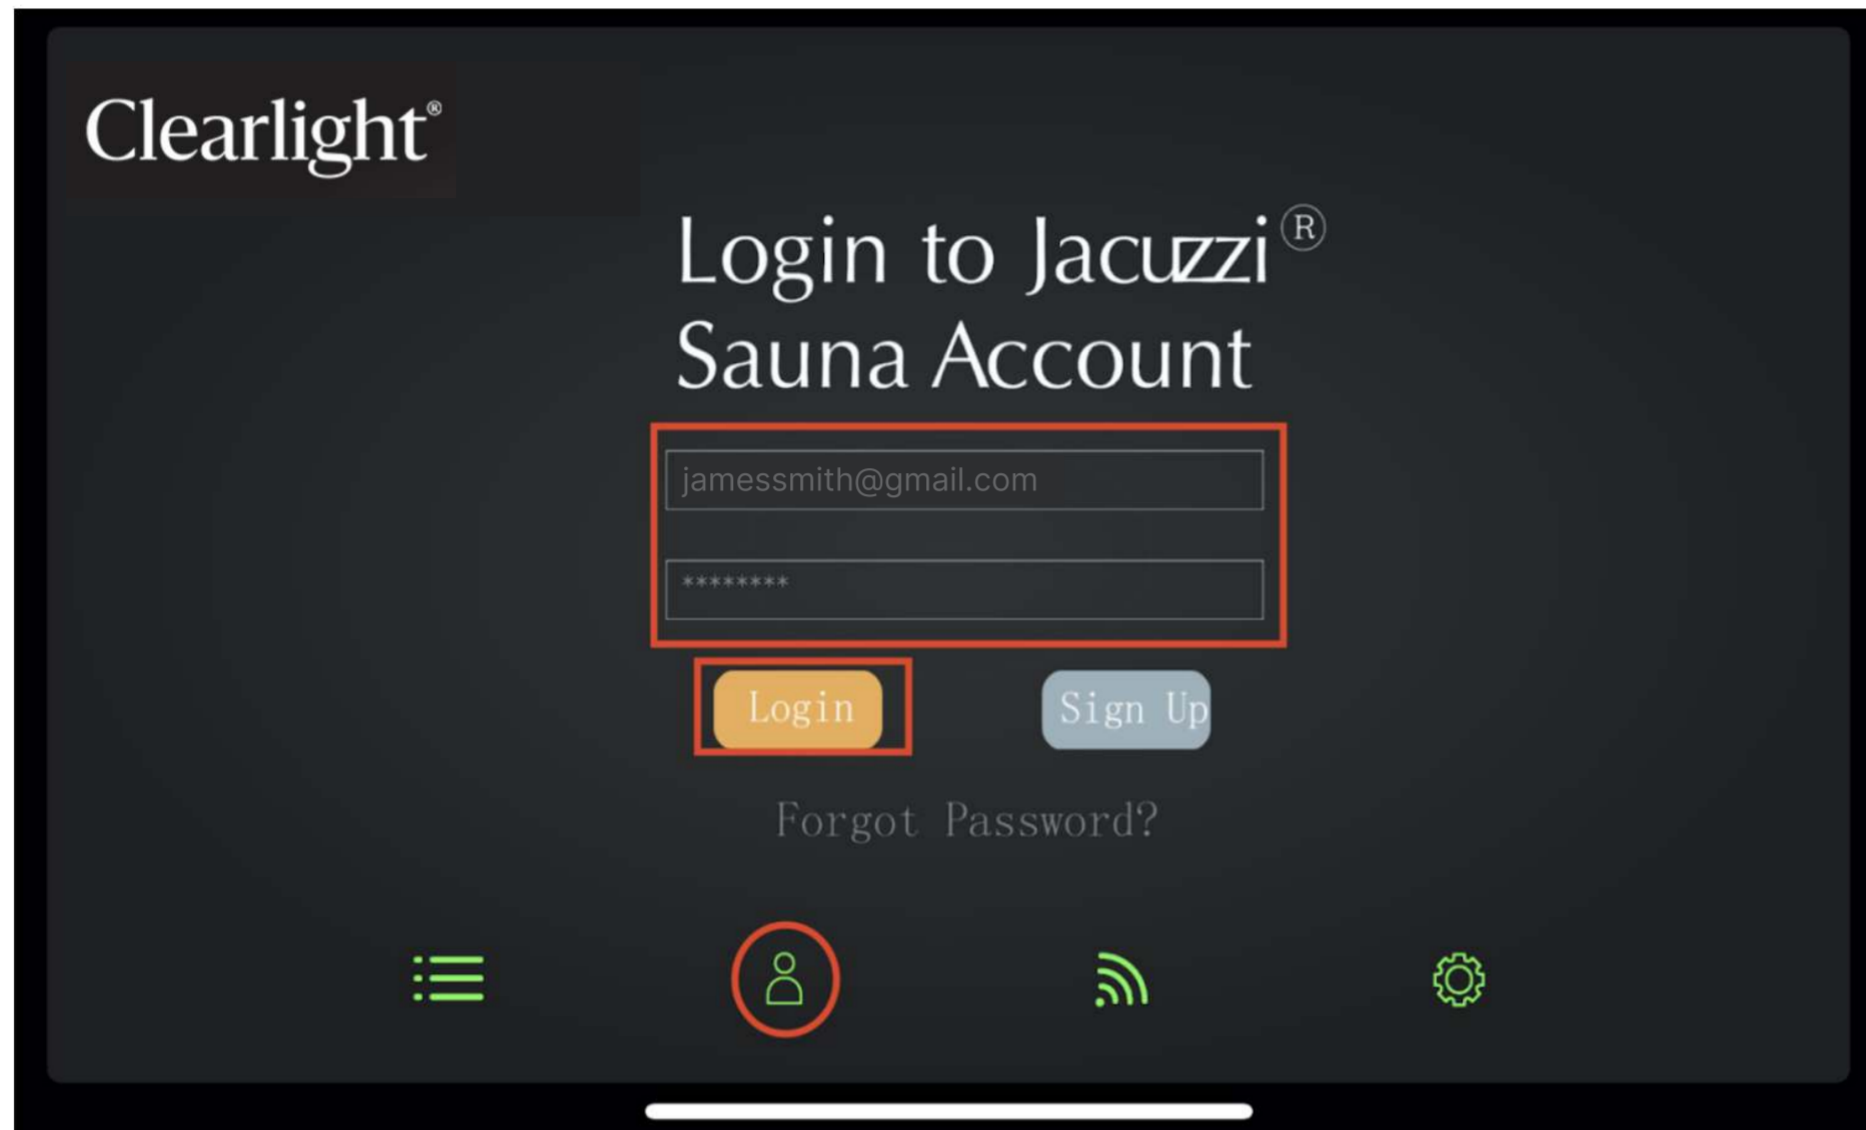

For new users, you need to click **Sign Up** to create a new account. (See point 7)

7. Select **Sign Up** to create an account. You will need to enter an email address and password. Click **Register**.

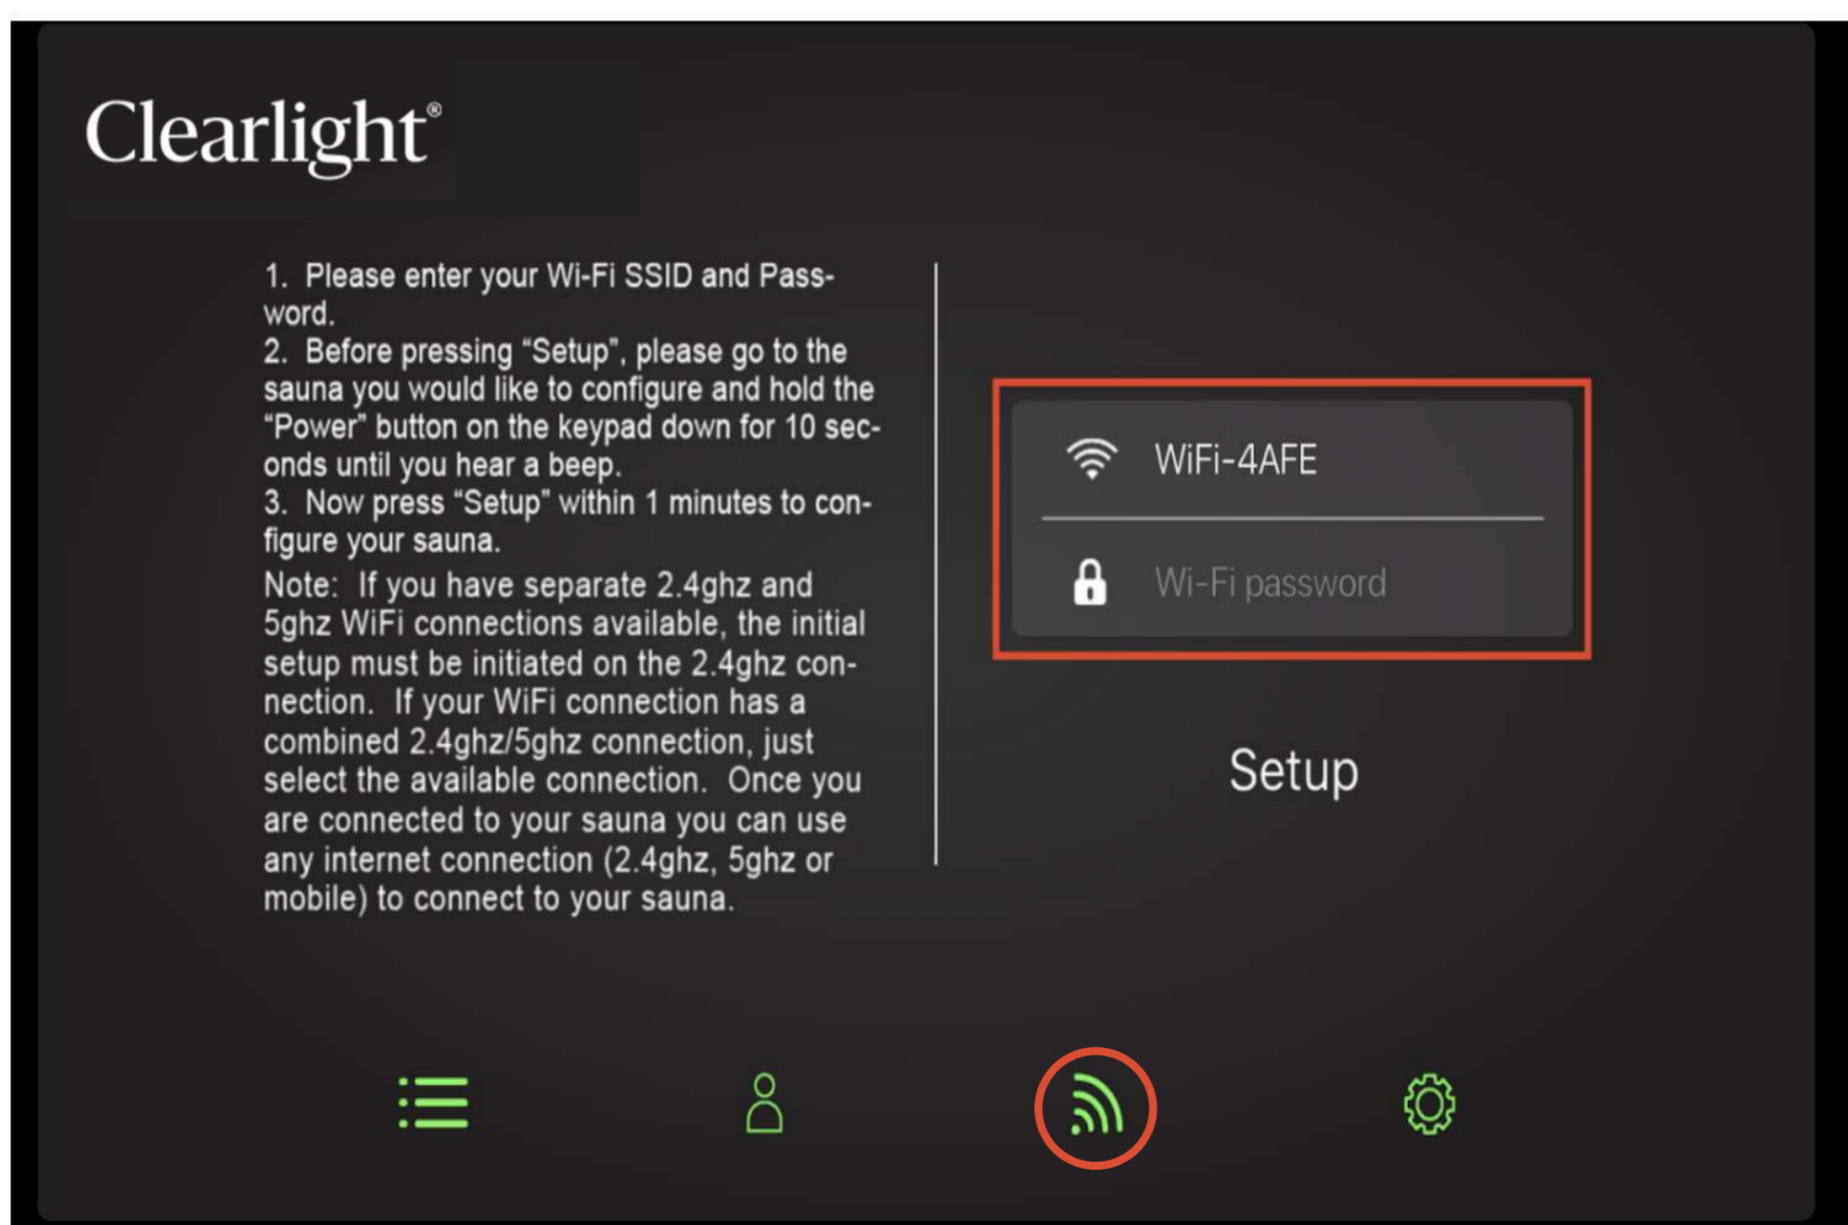

8. After **Signing Up** you will be asked to enter your email and password to **Login**. Once login is complete, go to **Configure WIFI** tab (3rd to the left).

9. Enter in and confirm the correct **WiFi SSID** and password for the router into the app.

10. Go to the sauna you would like to configure and hold the "POWER" button on the keypad down for 10 seconds until you hear the beep, followed by pressing the SETUP button on the app.

11. Now press the "SETUP" within 1 minute to configure your sauna.

12. To confirm that you are connected to the sauna, you will see the sauna name on the refresh page (icon on far left). Repeat the process above if you want to setup multiple saunas.

Remote access setup instructions

Follow the corresponding steps:

Clearlight Infrared Sauna Remote Access Setup Instructions

Please follow the instructions below to setup the Clearlight Connect App to control your sauna. You will need your WI-Fi SSID and Password to configure your saunas for the first time. Once your sauna is setup on your Wi-Fi network, you will be able to control your sauna from anywhere.

Note: For the initial setup, you must be connected to a 2.4 GHz or slower Wi-Fi connection. Once your sauna is configured, you can connect to your 5 GHz Wi-Fi connection.

You must be close to your sauna to perform the one time setup.

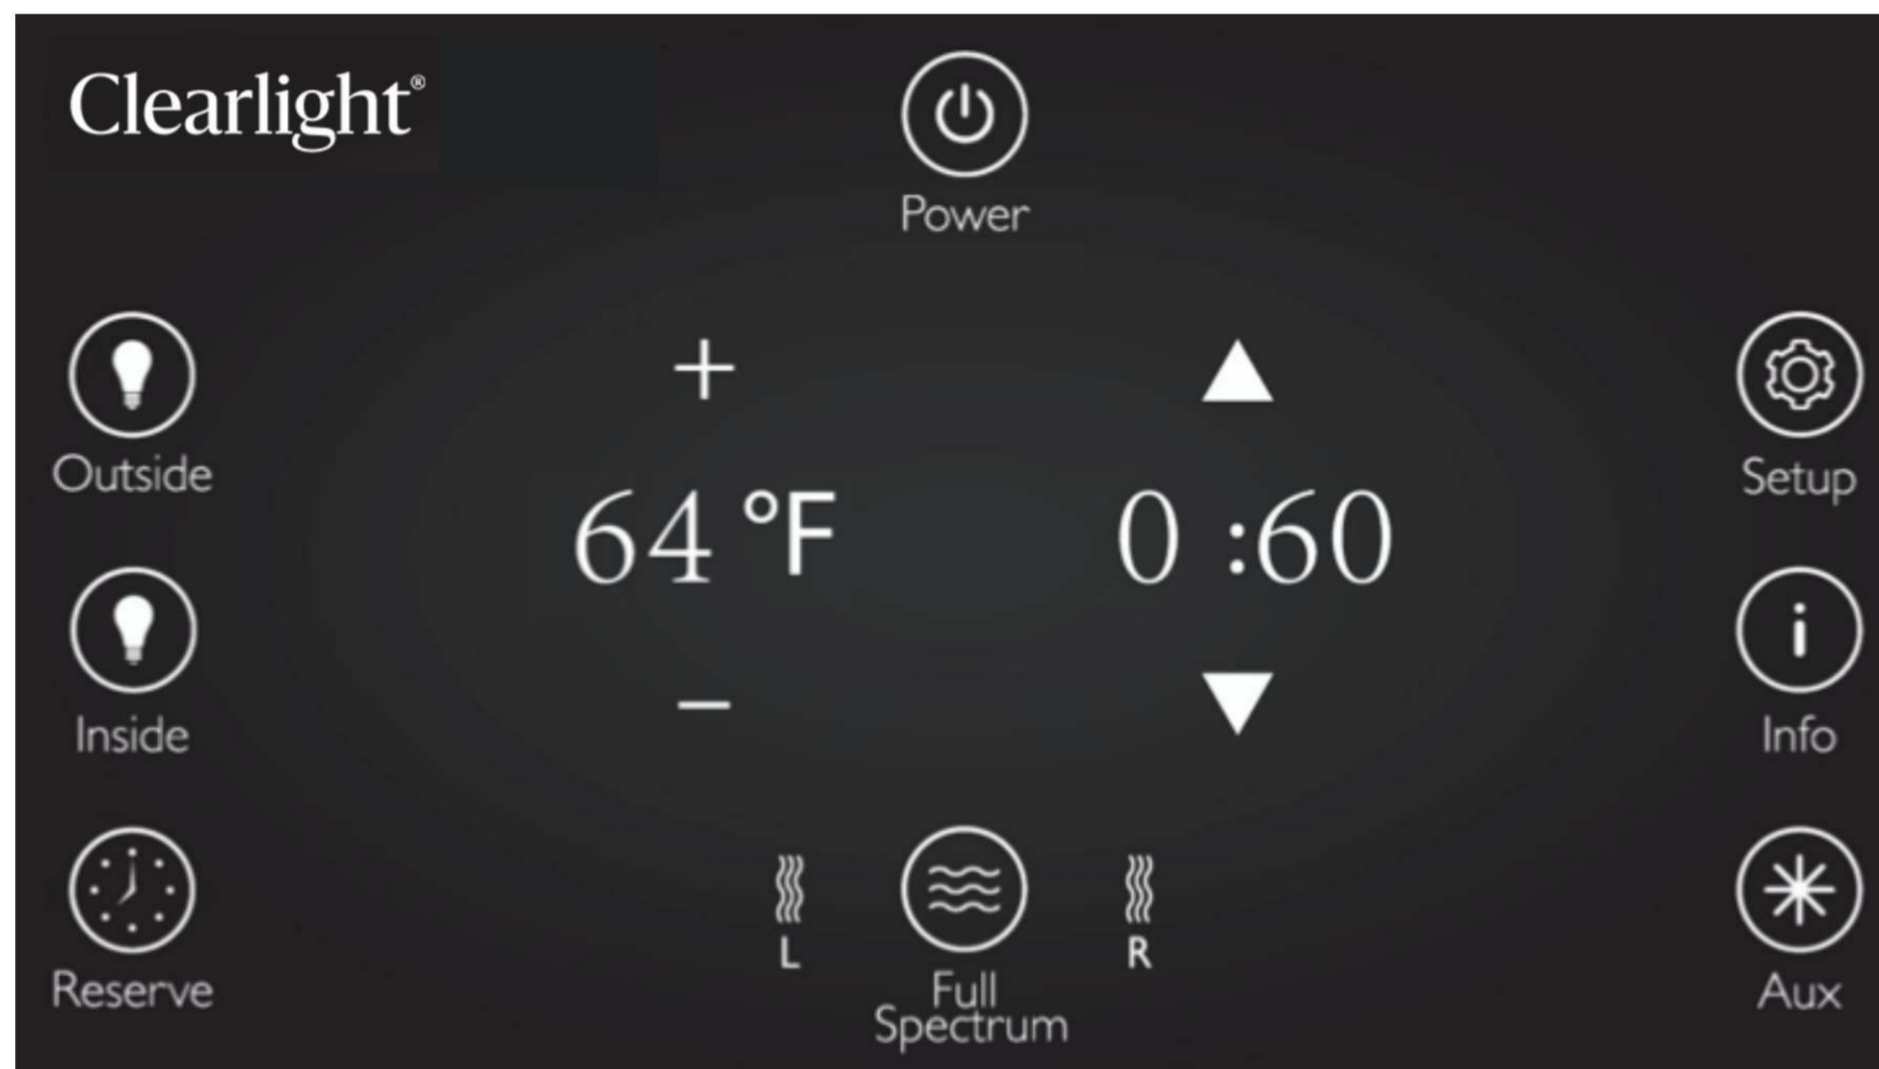

1. Connect your phone or tablet to your 2.4 GHz Wi-Fi network.
